

CHANGE THE GAME

YOUR SITUATION

- Supply chain complexities
- Labor challenges
- Capital constraints
- Throughput limitations
- Inventory issues
- Quality & delivery concerns

THERE ARE NO WEAK LINKS IN A CABLE

Our customer was experiencing rapid growth due to the pandemic environment. As a result, they experienced supply chain issues with their current manufacturing partner, inhibiting their ability to scale. With WCI, they started to think of their supply chain as a cable and integrated their supply and assembly solutions to increase throughput, improve supplier and assembly management and increased scalability.

3x overall capacity

ASSEMBLY
in the U.S. and Europe

+\$50 increase in profit per unit

DESIGN ENHANCEMENTS
for manufacturability and safety

CHANGE THE OUTCOME

Award winning supply and assembly for global OEM's, SME and E2E customers.

| WCI SOLUTIONS

- Simplify supply chain management
- Create capacity
- Reduce costs, increase margins
- Maximize throughput
- Optimize inventory flow
- Improve quality & delivery

| HOW WE DO WHAT WE DO

ANALYSIS

Built on insight, informed by experience and backed by analytics, WCI strategically optimizes supply to satisfy the demands of customers.

ASSEMBLY

From creating strong supply chains to assembling complex parts, WCI understands how to put together the components that create success.

ACCOUNTABILITY

We measure success by improving your throughput and capacity. Solving today's challenges right now.
